

	<b>FALMOUTH VOLUNTEER FIREFIGHTER'S ASSOCIATION</b> <b>FIRE AND EMERGENCY MEDICAL SERVICES</b> <b><i>SAFETY BULLETIN</i></b>	
	<b>SUBJECT: BAY FLOORS</b>	<b>NUMBER:</b> SB08-001
	<b>APPROVED:</b> Kevin Good, Fire Chief	<b>INITIATED</b> 01/2008
	<b>PREPARED:</b> James Morris, Sr., Safety Officer	<b>REVISED</b>

We have had 2 incidents of people slipping and falling in the Apparatus Bays.

The falls are a result of “Tire Shine” or “Armor All” over spray being left behind on the floor.

If you are going to use these products on the tires please do one of the following:

- 1- Move the vehicle outside onto the concrete
- 2- Place a towel or rag on the floor to catch the over spray and drips.
- 3- Wash the floor with a grease cutting solution after doing the tires

Thank you for your assistance on this matter
